

Bio-Metrica partners with BioLink Solutions

Bio-Metrica partners with BioLink Solutions to bring innovative fingerprint biometric solutions to the security & workforce markets.

Orlando, FL December 11, 2009 – Bio-Metrica LLC, a premier system integrator specializing in biometrics has partnered with BioLink Solutions Ltd., the leading provider of multi-biometric identification solutions.

“This partnership gives our worldwide customers comprehensive and professional solutions at a competitive price, based on BioLink’s technology and our engineering capabilities,” said Ronen Yacobi, CEO of Bio-Metrica, LLC. “BioLink’s ANSI/ISO compliant Biometric Software Development Kit (BSDK™), Bio-Time™ and IDenium™ products are some of the best in their class for biometric identification systems.”

“Bio-Metrica increases our reach to clients who require both engineering and custom project expertise to create the system they need,” said Alexander Galitsky, Director of BioLink Solutions Ltd.

Bio-Metrica is the manufacturer representative for BioLink across the world, including North, Central, and South America, Western Europe, most of Africa and the Middle East. Custom solutions developed using BioLink’s technology include an Automated Fingerprint Identification System (AFIS), Civil Identification & Law Enforcement systems (AMIS) such as e-passports, multi-purpose ID cards, visas, driver licenses, Voter Registration System (VRS), and special deployments of Active Directory Domain protection and Time & Attendance systems.

About Bio-Metrica, LLC:

Headquartered in Altamonte Springs, Florida, USA, Bio-Metrica LLC is a system integrator of both turnkey and custom biometric authentication systems servicing clients all over the world. Founded by electrical engineers and equipped with the most updated know-how in the biometric field, Bio-Metrica provides cutting edge biometric solutions to government and corporate customers.

About BioLink Solutions Ltd.:

BioLink was founded in the year 1999 and has rapidly evolved into one of the leading global providers of cutting-edge biometric identity management solutions. Employing the best international practices and scientific developments, BioLink is committed to building, deploying and maintaining a full range of award-winning biometric identification and identity management solutions worldwide. Such solutions are designed for a wide range of IT applications, ranging from home computers and information infrastructures of small, mid-sized enterprises and

commercial businesses to large-scale nationwide identification projects. The company's portfolio contains hundreds of successful implementations and installations in Africa, Asia, the USA, Europe, and other regions of the world.
